CANADA'S CREDIT UNIONS

YOUR SHORTCUT TO 'YES'

Your Credit Union Business Planner

As a member, joint owner and shareholder in your local credit union, you already have a different kind of relationship with your financial institution. That makes business banking here different too:

- *we keep financing decisions local and accountable*
 - *your character, track record and business plan matter*
 - *we'd rather lend support than make stipulations*
-

In short, we keep it personal because you take your business personally.

So instead of pressing you into a grid full of blanks in a yea-or-nay mathematical formula, let's take a few minutes to create a living profile of your business and financial scenario. Our experience with businesses of all sorts, all across Canada, has taught us helpful questions to ask, and how your answers can help move the financing process along efficiently.

This is a concise way you can get a head start on a financing strategy for your business. Fill in this planner and we'll get to 'yes' faster, simpler, together.

YOUR BUSINESS PROFILE

1.0

Tell us what got you into business. A great idea, an open opportunity, the chance to make a difference, financial rewards for your family, the appeal of making your own decisions. Whatever your reasons, we know they run deep.

This section will help your credit union representative understand your business, not just your numbers.

Let's start with a profile of your venture: the **whos, whats, whens, wheres and whys**. Tell us about your core idea, who you are, the people around you, the market you're after, the world as you see it. All of the following questions may not be applicable for all businesses. It'll help us come up with the right financing solutions to support what's important to you.

This section will help us get to know the people behind the business. (And shed light on your financial strengths as well.)

If you already have financial plans for your operating business, we can start with those – just include your statements with this form. If you're just about to start a new business, you can go straight to the Cash Flow Forecast section for now and feel free to ask your credit union representative if you have questions.
